Message

GOV COOPER: I have emailed you requesting that you immediately take a stand against the Atlantic Coast Pipeline, and order DEQ to hold additional public hearings to gather facts and information that have not been answered or adequately addressed by the ACP. I also called the public number and your staff person misinformed me, saying that your position of the ACP was published on your website, on January 19th, but i was unable to find it. I am sure it it not there. You take a stand to protect our public beaches from off shore drilling, but remain silent about the dangers of natural gas, methane, and the environmental damage to the eastern counties the pipeline will pass through. These are the poorest counties, and the least protected from hazards that will occur from gas leaks and explosions. Please have the courage to stand up to Domion and Duke and the corporate funders. Your job is to protect thhe public. This is why i voted for you. I will not vote again or give you money if you fail to opposed the ACP.
